There is too much noise	34.71%	42
The noise does not bother me	31.40%	38
I do not hear much noise throughout the day	33.88%	41
TOTAL		121

Q4 What do you think Corte Madera should do in regards to leaf blowers and motorized landscape equipment?

Answered: 121 Skipped: 0

ANSWER CHOICES	RESPONSES	
We should expand restrictions on all types of leaf blowers and motorized landscape equipment. (this includes adding or increasing fines)	6.61%	8
We should only allow electric and/or battery-powered leaf blowers and landscape equipment.	27.27%	33
We should completely ban leaf blowers and motorized landscape equipment.	6.61%	8
I am not bothered by leaf blowers or motorized landscape equipment.	42.98%	52
Other (please specify)	16.53%	20
TOTAL		121

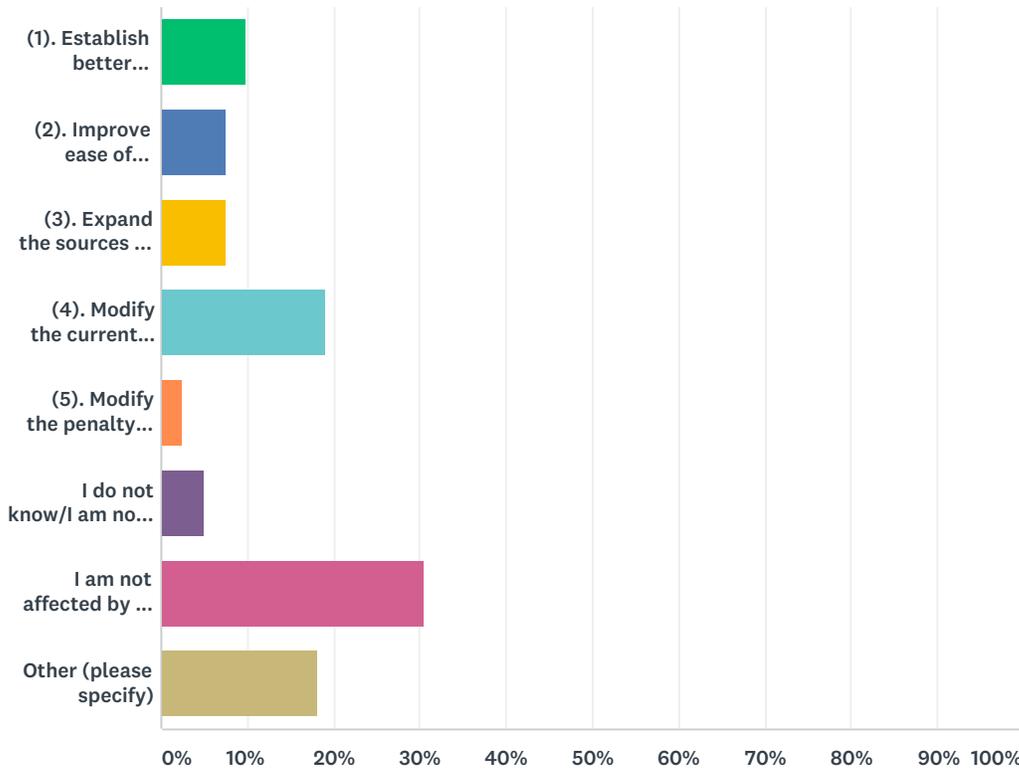

#	OTHER (PLEASE SPECIFY)	DATE
1	Specify starting AM times and blowing done by 4pm. 7AM is way too early.	5/10/2018 12:52 PM
2	I work during the day so am not subjected to leaf blowers. My next door neighbor's gardener uses one every other week at 7-8PM. It does not bother me. I have also had neighbors with barking dogs which I just tune out.	5/4/2018 7:41 PM
3	Expand restrictions to include power washers	5/4/2018 1:03 PM
4	no weekends	5/3/2018 5:21 PM
5	Enforce hours ezpecyon weekends	5/3/2018 3:14 PM
6	we should limit the duration these types of devices can be used. A leaf blower for 10 minutes is fine, even when right next door; a weed wacker which is operated nonstop for an hour is annoying and unnecessary.	5/3/2018 2:06 PM
7	We should impose restrictions on leafblower, construction activity, etc. to business hours between 9-5.	5/3/2018 1:54 PM

TOWN OF CORTE MADERA NOISE ORDINANCE SURVEY

8	There are some landscaping jobs that require the use of a leaf blower - rakes just wouldn't work or the time involved would make their use way too expensive in terms of labor costs. I do think they should not be used before 8:00 a.m. or after 5:00 p.m. and on the weekends between 10:00 -5:00 p.m.	4/29/2018 4:41 PM
9	Should NOT be allowed on weekends, specifically leaf blowers	4/22/2018 2:22 PM
10	I prefer this to take place, if needed, after 9 am.	4/17/2018 2:48 PM
11	Perhaps everyone could first be made aware (faq's) of the existing restrictions. Perhaps an incentive to eliminate gas powered devices could be offered.	4/16/2018 5:19 PM
12	We should ban gas powered leaf blowers but allow other gas powered landscaping equipment for now. 40 volt battery powered equipment is becoming common and professional landscapers can purchase battery backpacks which will hold a charge for most of the day. I think landscapers will slowly move to battery power for most landscaping needs and banning gas powered leaf blowers will move Corte Madera in that direction. Gas powered leaf blowers are particularly alarming because for the noise produced it does not appear that much work is accomplished. I do not think a ban on gas powered leaf blowers will impact commercial landscapers because if there are additional cost it will be passed on the the homeowner or commercial tenant.	4/15/2018 2:21 PM
13	Routine use of loud equipment should be banned (illegal motorcycles, leaf blowers, anything from 9pm - 8am) Occasional use of loud equipment (e.g. chainsaws for tree cutting) should be allowed.	4/14/2018 8:49 AM
14	I have serious concerns regarding yet another ordinance and the banning of equipment used on private property. 20 minutes of use is just that "20 minutes" get over it, go inside and shut the door. please, do not implement a ban to accommodate the few at the expense of many. most residents likely don't know that this is under consideration, and enforcement would likely be discriminatory	4/13/2018 7:10 PM
15	Just have specific hours	4/13/2018 5:32 PM
16	There should be time constraints e.g. 9-5 Mon-Fri for professional landscapers and 10-4-00 on weekends for homeowners.	4/13/2018 4:05 PM
17	Electric and battery only in residential areas; gas powered allowed in commercial areas.	4/13/2018 3:54 PM
18	Constant construction noise is what is the worse around our neighborhood. The gas blowers are annoying and noisy - but generally only last 10-20 mins max. It would be nice to just restrict the hours 9am-5pm or something.	4/13/2018 3:41 PM
19	Hours of operation could be limited to something like 9-4:30.	4/13/2018 1:38 PM
20	Older blowers should be banned. They have no mufflers and ar3 too loud. I don't think it's realistic to think you can ban all blowers. Limit hours of use?	4/13/2018 1:22 PM

Q5 On December 19, 2017, at the Regular Town Council Meeting, the Town Council was presented with a staff report where the Town Attorney identified five ways in which the Town Council might consider improving the existing noise ordinance. From the short summaries below, please select the one you believe is the most appropriate from those five options.

Answered: 121 Skipped: 0

ANSWER CHOICES	RESPONSES	
(1). Establish better enforcement standards: adding minimum ambient and maximum noise levels for the various zoning districts in the Town (the current ordinance does not clearly establish the procedural enforcement standards for investigating noise complaints and issuing noise violations)	9.92%	12
(2). Improve ease of enforceability: adopt a set of measurable, objective criteria to determine if a noise violates the ordinance, and establish streamlined enforcement procedures (the current ordinance contains enforcement provisions that are difficult to apply in practice)	7.44%	9
(3). Expand the sources of noise that are subject to local noise regulations: amending the list of exempted noise sources so that the list is clearer, more complete, and better addresses the needs of the community (the current ordinance narrowly limits the sources of noise that are regulated)	7.44%	9
(4). Modify the current leaf blower restrictions: modifying the authorized operation times for gas powered leaf blowers AND/OR expanding the gas powered leaf blower restrictions to also apply to electric and battery-powered leaf blowers AND/OR adopting different leaf blower regulatory frameworks for commercial districts and residential districts (the current ordinance only restricts use during certain hours)	19.01%	23
(5). Modify the penalty provisions: combine criminal penalties, public nuisance remedies, and administrative penalties like other local noise regulations throughout California (the current ordinance declares violations as a misdemeanor or an infraction)	2.48%	3

TOWN OF CORTE MADERA NOISE ORDINANCE SURVEY

I do not know/I am not sure	4.96%	6
I am not affected by the current noise ordinance and would not be bothered if it was left in it's current state.	30.58%	37
Other (please specify)	18.18%	22
TOTAL		121

#	OTHER (PLEASE SPECIFY)	DATE
1	I see no reason other than being lazy for allowing gas powered tools. It completely destroys any tranquility in a neighborhood. There are not enough personnel to enforce rules so the point is mute.	5/11/2018 12:31 PM
2	I am not concerned about noise from leaf blowers. I do have issues with amplified music coming from the Town Park and the Recreation Center.	5/6/2018 9:15 AM
3	I've lived in Madera Gardens for 40+ years, and the noise levels are continuing to get worse. More folks are using "blow and go "yard maintenance. Not only is the noise ruining the quality of life, it also blows dust into the air that aggravates my COPD, ruins laundry hanging on the line, and reduces solar gain on my solar panels. Using electric blowers with bags that suck up debris, and electric trimmers and mowers would dramatically cut the noise and pollution. I have been using them on my properties for over ten years, and good old rakes. There is also an increase in vehicles with modified mufflers to make them sound louder, such as glass packs. Please address this, and at a minimum, adopt a common ordinance that is the same in the CMPA jurisdiction.	5/5/2018 12:57 PM
4	Completely ban gas-powered leaf blowers. They are totally stupid. Gardeners using them complain about bad backs (such that they can't easily bend over to [a] push a wide broom, [b] pull a wide rake, and/or [c] move around outdoor furniture). The weight of these unwieldy machines strapped to their backs are what causes... (guess what?). Also, they typically wear ear muffs to lessen the noise (only for them) ~ and often masks to lessen being sickened by gas fumes & air-borne dust. In addition, I see them greatly struggle with heavy power mowers (making U-turns on tiny lawns), and also hedge trimmers where they sometimes bend over sideways ~ (ouch!). (Mufflers lessen noise minimally, but then they add even more weight).	5/4/2018 5:04 PM
5	I like to feel that my town is full of life; noise is life, and it's very quiet at night, which is nice. I leave my windows open at night and there is no noise. I love the idea that people are maintaining their homes so gardening, building noises dont bother me. I like children playing, dogs barking, lawns being mowed, birds singing. Please don't implement restrictions like Ross where everyone is inside. I miss the 5:00 horn in Larkspur. I like small vibrant towns and have no problem with noise. Keep Corte Madera fun and vibrant.	5/3/2018 8:15 PM
6	My real concern is all the large construction projects. My neighbors might have puppies/dogs that bark, but not constantly. I would rather have manicured landscaping then disallowing leaf blowers, etc. They aren't an everyday occurrence. Whenever I've had noise disturbance problems, the CMPD has handled the situation in a fair, understanding and responsive manner.	5/3/2018 3:33 PM
7	Allow Gas Powered leaf blowers and lawn equipment, hand out ear plugs to people that complain.	5/3/2018 2:48 PM
8	The guy complains about leaf blowers is a crank ignore him.	5/3/2018 1:30 PM
9	I think gas-powered leaf blowers should be banned entirely. There are alternatives: cleaner, low noise, commercial grade battery leaf blowers are available.	4/27/2018 2:30 PM
10	Leaf blowers present three separate problems. Noise and air pollution are two. Allowing electric-only leaf blowers would address air quality issues and would potentially address noise, although I have not heard how loud electric versions are. They would need to hit a much lower decibel level to be acceptable on this front. The third problem, however, is that leaf blowers simply move leaves around--typically ending up on neighbors' lawns. For this reason, I believe they should be banned entirely. At a minimum, there should be a requirement to finish landscaping with a rake and collection process. This, however, is likely to be unenforceable, so I would support an outright ban on leaf blowers.	4/24/2018 4:02 PM
11	None of the options presented would resolve the issue. All forms of leaf blowers should be banned except for commercial and public works needs. Hired gardeners do little more than use leaf blowers for 30 minutes or MORE and then pack up and leave. And then the next ones show up for the neighboring house and it starts all over again. That our Town Council can't understand that just shows how out of touch and ignorant of the situation.	4/16/2018 5:37 PM

TOWN OF CORTE MADERA NOISE ORDINANCE SURVEY

12	The first step should be to clearly, briefly and succinctly post and publish the existing guidelines/regulations. Second step should be an incentive based on health, environment and good neighborliness to help people switch from gas powered devices. Try those and I'd bet you wouldn't have to tackle any of the 5 items mentioned.	4/16/2018 5:19 PM
13	I think a combination of all of the above would be needed. #1 & #2 seem very similar; better standards are essential to ease of enforcement. Also different sources should all be covered, leaf blowers may be the worse, but other sources could be just as bad on occasion. And penalty provisions are certainly needed if enforcement is to be effective.	4/15/2018 5:58 PM
14	KISS, just ban gas powered leaf blowers and leave other sources of noise alone for now. Allow battery powered leaf blowers at any time. Hopefully we could eventually adopt this ordinance in Larkspur and San Anselmo so enforcement is easy. Other communities report that an initial warning is enough to correct problems with compliance.	4/15/2018 2:21 PM
15	There is not enough information above to reasonably choose between alternatives.	4/14/2018 8:49 AM
16	All of the above given the issues under the options. I hope any re-writes are not overly restrictive. Kids should be able to play with outside voices, dogs bark (and sometimes at visiting cats from neighbors or coyotes etc. and that is not a bad thing). That said leaf blowers are extremely loud and some workers use them excessively, blowing debris into the street and onto cars. We can do without this noise and air pollution.	4/14/2018 7:57 AM
17	There is no need for a noise ordinance. You are creating issues that do not exist. Allow owners to properly care for their property. Follow Sausalito's lead	4/13/2018 5:25 PM
18	Why do we use leaf blowers??? Why not use a leaf suction device to have the leaves sucked into a bag??? Many who use leaf blowers simply blow them somewhere else	4/13/2018 4:36 PM
19	The main concerns are gas powered leaf blowers which I believe should be fully prohibited and barking/howling dogs. There is a dog somewhere on Mohawk that starts barking triggering couple of others in the area with transition to howling for 10-20 min each hour. This makes the block between Lakeside, Mohawk and Monona extremely noisy and sometimes even unbearable.	4/13/2018 3:55 PM
20	Leaf blowers and lawn mowers are nowhere near as bad as construction. Even if they can't start before 7am they are driving around in large trucks, beeping when the backup, setting up signs. All of these things disturb the peace and all happen too early. I'd suggest more limitations around construction times and what activities can be performed when. Notice for when they will be performing what work (specific days and times - eg pg&e jack hammering our roads up) would be helpful for me to plan my day and plan when I can and cannot work from my house.	4/13/2018 2:32 PM
21	There are a number of dogs near our house that bark uncontrollably. I believe that the problem is worst when their owners are away and the dogs are left outside in the yard. I think that owners of such dogs should be required to keep the dogs indoors when they are away.	4/13/2018 1:53 PM
22	Not allowing residents to use leaf blowers (especially electric) seems unreasonable. Especially when motorcycles, sports cars and trucks are louder and significantly worse for the environment. I'm not suggesting a ban on anything, just seems very hypocritical. I would like to see a scientific study that shows reducing the use of leaf blowers helps in any way (other than folks complaining on next-door). This also seems like a complete misuse of our police department who can be doing much more important things.	4/13/2018 1:26 PM

TOWN OF CORTE MADERA NOISE ORDINANCE SURVEY

Q6 Please share any comments or concerns relevant to the Corte Madera Noise Ordinance

Answered: 59 Skipped: 62

#	RESPONSES	DATE
1	yes	5/11/2018 12:31 PM
2	Dogs, kids, construction, etc. make noise. Neighborhoods are noisy. But I do think the gas powered equipment is harmful to the environment, and dangerous when used on red flag or spare the air days, which happens a lot.	5/9/2018 9:44 PM
3	This should include some criteria on construction addressing hours and days of the week for loud noise.	5/5/2018 3:37 PM
4	The current ordinance is irrelevant and not enforced.	5/5/2018 12:57 PM
5	I would prefer focusing on mediation between neighbors rather than making more stringent rules. People need to feel that they are heard and most of the time it is possible to work things out with some encouragement.	5/5/2018 12:47 AM
6	I find the noise of the 3 garbage trucks at 6-8AM most intrusive. I would like to see MV Refuse required to wait until 8AM to start collections in residential neighborhoods.	5/4/2018 7:41 PM
7	Leaf blowers don't accomplish anything that can't be addressed more quietly with a rake and a broom.	5/4/2018 5:07 PM
8	Thank you for using this method of getting community feedback. Smart.	5/4/2018 2:08 PM
9	All types of noise including barking dogs, power washers, etc	5/4/2018 1:03 PM
10	The dogs barking bothers me more. Leaf blowing I hate the sound but it usually is short and from different sources and neighbors usually respect the times.	5/4/2018 10:41 AM
11	Please please please ban construction/building/renovation noise on weekends. It's bad enough that we endure five long days of this noise and large noisy trucks barreling down our street. We should not have to put up with construction noise on weekends. Last Saturday night, a contractor neighbor was sandblasting the outside of his house at 6:30 PM. Also please post the allowed hours of construction at each job site. The hired contractor who renovated the duplex across the street regularly ignored the noise ordinance; my complaints to the planning department did little good.	5/4/2018 9:19 AM
12	I use a mechanical, push rotary lawn mower (purely human powered) and a broom. You realize that the leaf-blower landscapers, besides making lots of annoying noise, are blowing the debris into the street, which then wash into the drains.	5/3/2018 7:58 PM
13	First, I live in Meadowcreek Station HOA, not Madera del Presidio. Second, I have no complaints or problems regarding noise -- other than occasional barking dogs and fireworks (4th of July and New Year's Eve). Any existing noise ordinance should be enforceable based on specific criteria, rather than something open to interpretation. (We had a homeowner in our HOA that complained about another homeowner's air conditioner, and actually called the police about it. It seemed that the ordinance wasn't specific enough to prevent such BS complaints.)	5/3/2018 4:58 PM
14	ENFORE AND FINE PEOPLE WHO USE LEAF BLOWERS, power tools before 10 am oneeekends. Also people whose dogs are barking	5/3/2018 3:14 PM
15	Please don't make Corte Madera and HOA, if we wanted to live in one we would.	5/3/2018 2:48 PM
16	I'm a stay at home Mom she I'm home a lot of the day. The noise has never bothered me. Of course when a neighbor close by is having concrete jackhammered i don't really care for it. Although if you can't do that during the day then when can you?	5/3/2018 2:12 PM
17	The restrictions should also apply to Town personnel. It is hypocritical to say citizens can't use leaf blowers but town employees can. And yes, I've heard the argument that the Town uses these devices in areas that aren't near houses.	5/3/2018 2:06 PM

TOWN OF CORTE MADERA NOISE ORDINANCE SURVEY

18	While I am not bothered personally by the noise from the Post Office I know that many of my neighbors are. I'd like to see something done. This has been an ongoing problem for many, many years.	5/3/2018 1:54 PM
19	Leave it alone Too much nanny state regulations as it is. Go after solistors and car burglars.	5/3/2018 1:30 PM
20	Not enough enforcement of building permit construction times.	5/3/2018 12:28 PM
21	There should be some enforcement for neighbors who routinely disregard others, whether they are using chain saws, construction equipment, leaf blowers or their stereo - noise is noise, and decibel levels and hours and days of the week should be the determinants for any intervention, not the source of the noise. Rather than being punitive - and let's face it, enforcement will be a challenge and whoever the enforcers are probably have better things to do - we should encourage neighborhoods and neighbors to work collaboratively. Utilizing the connections that are being made through the Emergency Preparedness programs is a start.	5/1/2018 3:08 PM
22	Exhaust emissions from gas-powered leaf blowers can contain significant amounts of highly toxic compounds linked to certain cancers, asthma and other respiratory problems. Children are most susceptible since they breathe more air per pound of body weight than adults. When exposed to even small amounts of toxic chemicals at critical periods of developments can have longlasting consequences. I have more points to make on this. There is a grassroots organization that can speak to this topic specifically. www.grassrootsinfo.org	4/27/2018 2:30 PM
23	The leaf blowers, etc. isn't just a noise issue but an environmental and pollution one, especially as Marin has too much particulate matter in the air.	4/20/2018 12:17 PM
24	Time restrictions DON'T work. It only serves to pit neighbor against neighbor which is how our "officials" seem to want it to be.	4/16/2018 5:37 PM
25	Would have been nice for multiple answers in the questions. ie: Question 2, some of us do some work and use a gardener /landscaper. Question 3, do you find the noise acceptable? would have been a nice option. Couldn't there be a N/A option.	4/16/2018 5:19 PM
26	Noise in Madera Gardens has gotten much worse over the years. We appreciate any efforts to establish reasonable rules and enforce them.	4/15/2018 5:58 PM
27	Ban gas powered leaf blowers and come back to this issue in 12 months and see if there are any negative impacts and to address other problems with noise if they still exist.	4/15/2018 2:21 PM
28	The last thing I want is even more regulation, LEAVE IT ALONE	4/14/2018 6:57 PM
29	The current noise ordinance works pretty well; however, when complaints of dog barking (incident #L17-148286) are reported, the follow up has been at best infrequent. The dogs continue to bark at all hours and sometimes the sessions last several hours. Owners leave them out on the decks when not home so it appears that the dogs are not controlled properly. In my opinion, it is boarding on animal cruelty. We have kind of given up reporting the situations as no one likes to be "a pain in the side" of the authorities.	4/14/2018 10:49 AM
30	Barking dogs are a natural occurrence, but leaf blowers are not. While I checked the box for electric leaf blowers (and lawn mowers) only, I am not sure how that could or would be enforced.	4/14/2018 9:57 AM
31	Police should not be allowed to abrogate enforcement responsibility because it's "difficult". Occasional aberrations should be tolerated; routine violations should be stopped.	4/14/2018 8:49 AM
32	I'd like to add to the expansion list of noise regulations. DIY home improvement construction noise tends to go past noise restriction hours and goes all weekend long and weekday evenings. I'd like to know how to enforce keeping the peace during these times. Especially now that the daylight is getting like longer.	4/14/2018 3:45 AM
33	Our gardener went from gas to electric leaf blower and it made a huge difference. I think electric blowers should be required. They are just as effective and pollute much less.	4/14/2018 3:17 AM
34	choice selection seems biased in favor of enforcement	4/13/2018 7:10 PM
35	my neighbor's gardeners use a leaf blower for hours at a time, usually just as I am going out to enjoy my yard. The noise and smell are horrible.	4/13/2018 6:32 PM
36	I am more irritated by neighbors blasting loud music after 10 then any leaf blower. Is there a rule about this?	4/13/2018 6:03 PM
37	Barking dogs	4/13/2018 5:32 PM
38	No need for a noise ordinance. A waste of time	4/13/2018 5:25 PM

TOWN OF CORTE MADERA NOISE ORDINANCE SURVEY

39	My neighbor occasionally goes crazy with a power washer and uses it all day! But she will tell you she takes 14 minute breaks. The noise from a power washer is much louder than a leaf blower!	4/13/2018 4:05 PM
40	Drums in neighbors backyard is too noisy.	4/13/2018 3:56 PM
41	The main concerns are gas powered leaf blowers which I believe should be fully prohibited and barking/howling dogs. There is a dog somewhere on Mohawk that starts barking triggering couple of others in the area with transition to howling for 10-20 min each hour. This make the block between Lakeside, Mohawk and Monona extremely noisy and sometimes even unbearable.	4/13/2018 3:55 PM
42	Ban gas leaf blowers for emissions and dust. Noise is byproduct.	4/13/2018 3:55 PM
43	How typical of the Town of Corte Madera to not list our neighborhood, just past Robin Drive on the water side of the street. I don't know why I'm bothering to fill out this questionnaire if where I live is not important to you (as it obviously is not). Am I cynical? Um, yes.	4/13/2018 3:47 PM
44	We live in a noisy world. If we could just be sensitive and respectful to one another... and communicate like adults are supposed to communicate... all would be rosy. Perhaps just widespread education and/or incentives for "going green"? Just a thought.	4/13/2018 3:41 PM
45	In our area of smaller homes, use of leaf blowers does not last very long so I do not find them a problem. In areas with larger properties, they may need more restrictions.	4/13/2018 3:06 PM
46	We don't need more regulation. Our police force should have more urgent matters than policing leaf blowers and other such matters. If we keep adding housing units, we have to expect more noise from having more neighbors.	4/13/2018 3:04 PM
47	I think we should all be understanding of the need to maintain yards, own pets, or let children play. Our boys' friend's neighbor complained about them dribbling a basketball outside and threatened to sue us. Unless the noise is loud partying past 10 p.m. or verbal conflict, residents should be able to go about their daily lives. Thank you for this opportunity to provide input.	4/13/2018 3:00 PM
48	It's not just the noise, which is disturbing. It is the displacement of dirt, dust and debris into the air and downwind into the neighbors homes. This triggers severe allergy reactions and contaminates our homes.	4/13/2018 2:45 PM
49	Don't we have more important things to spend our time on?	4/13/2018 2:32 PM
50	I would like to know what sort of outreach the city has conducted with landscaping companies to get them on board with reducing the noise levels. An update to the city newsletter would be ideal.	4/13/2018 2:16 PM
51	Garbage truck making too much noise at the 5 AM in the morning	4/13/2018 2:04 PM
52	None	4/13/2018 1:41 PM
53	I don't have a problem with daytime noise. I would have an issue if there watered loud noises at night.	4/13/2018 1:37 PM
54	Barking dogs is my biggest noise problem because it can occur at any time and last for any amount of time.	4/13/2018 1:31 PM
55	As homes are being permitted to have additions or to be built larger, more sound reflective surfaces are present sending noise from one residence into another. This is a problem that needs to be dealt with. 3 recently remodeled and/or expanded homes in my neighborhood now create noise in my yard where they never did before.	4/13/2018 1:30 PM
56	The status quo is acceptable. Let's not over-regulate life in Corte Madera.	4/13/2018 1:21 PM
57	Although we are bothered by the two noise sources cited above, I am not keen for additional regulation. Town staff have more important things to attend to IMO; residents should seek to solve their problems with their neighbors. However, it is impractical for not to have any noise regulations so current regulations should be clarified and made more enforceable.	4/13/2018 1:16 PM
58	Noise from landscaping maintenance for me. Rarely there is neighbor noise (barking dogs, motorcycles , fireworks and such). Living in a town, I don't expect to be perfectly satisfied.	4/13/2018 1:15 PM
59	No comment. I'm fine.	4/13/2018 1:11 PM
